### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Independent claim 1 claims a pile compartment for flat postal articles with, among other features, a pile support. The pile support is displaceable along a pile wall. In addition, the pile support can be lowered downward into the plane of a pile bottom, so that it forms a bridge over a gap between the end of the pile bottom and an end of a supporting surface. After an extensive search of the prior art, the feature of a pile support that can be lowered into the plane of the pile bottom to form a bridge of a gap was not found. The most relevant prior art, U.S. Patent 5,993,132 teaches a flat postal article transferring apparatus where a pile support folds down, however, this pile support is not displaceable and does not operate in the same manner as the claimed pile support. Therefore, the examiner has found claim 1-6 to be allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
